fuel oil tank and fill

Yellow-Tag Sticker

Visibly designate a pipe as non-compliant with these stickers.

Tank Installation Date Sticker

Visibly mark the date a new tank is installed as required in the AST regulations.

DATE OF INSTALLATION

The Vermont Fire Code requires all fuel fired heating appliances in public buildings to be inspected at least every two years by a certified technician. These generic inspection tags meet this

Inspection Tag

requirement.

Heating Vent Sign

The Vermont Fire Code requires through the wall vents for fuel fired heating appliances to have signage in public buildings. These are weatherproof signs that meet this requirement.
